Non-Standard Computer Agreement

*** STOP ***

School Purchase of Computers

Trinity is currently transitioning to a new approach to its computer program. All boys in Year 5, 7 and 10 are being issued with a school machine with costs of the machine recouped via school fees. If you are in Year 8 or Year 9 in 2012, then you will be affected by this change. This change is compulsory. The school is offering an optional buy back of machines purchased through the school program which are still within the warranty and insurance period at the time of transition to the school purchase program. If you purchase a non-standard machine you will not be eligible for the optional buy-back. More information about the school purchase program and the optional buy-back can be found here: www.trinity.vic.edu.au/schoolpurchase

Student Name: ___________________________________
Student Id:  ___________________________________
Form:  ___________________________________
Tablet make:  ___________________________________
Model:  ___________________________________
Serial Number:  ___________________________________

If purchasing a non-standard computer, the School strongly recommends the purchase of a tablet computer. The use of Microsoft OneNote combined with tablet functionality is used in the teaching of note taking and increasingly class materials are distributed in OneNote form.

On presentation of a non-standard computer for connection to the School’s network, please tick and provide details to confirm the computer complies with the following specifications:

- [ ] The computer is fitted with an 802.11n capable wireless card
- [ ] Operating system is Windows 7 Professional (Mac users must bootcamp or similar)
- [ ] All antivirus software has been removed (Sophos, the school AV Software will be installed)
- [ ] Microsoft Office Professional with OneNote 2010 installed licence no. __________________
- [ ] Adobe Creative Suite 6 Master Collection licence no. __________________
☐ The machine is insured under the following policy:

Company name: __________________________________
Policy Number: __________________________________
Expiry: ________________________________________

Software
Other than the Microsoft Office Professional 2007/2010 package and Adobe CS5 Master Collection, software which is present on the School’s standard software load is available for installation on this computer via the School’s network, but it remains the responsibility of the student to install this software.

An annual levy of $120 per computer will be charged for software licensing and provision of network resources. Licenses are not transferable between computers.

The School is unable to provide software support for your computer.

No discs or manuals are available for the software, and the software is only for educational use, and must be uninstalled when the student leaves the school, or when the computer is no longer used by the student at school.

Repairs and Insurance
All repairs to your computer remain your responsibility. The School is unable to provide hardware support for your computer. Loan computers are not available to cover delays in repairs.

Your computer must be adequately insured against accidental damage, loss or theft, and the School accepts no responsibility for damage or loss to your computer through any cause.

Management
The School will script the installation of antivirus software and other software updates as appropriate via the network. The School maintains the right to access and manage your computer for the purposes of maintaining a healthy network. The School reserves the right to inspect your computer at any time to confirm its use falls within the bounds of the School’s Technology Acceptable Use Agreement available from: http://www.trinity.vic.edu.au/tech_aua.pdf.

Network Connection
Providing your computer complies with the specifications above (802.11n and Windows 7 Professional), the School’s technicians will set up the initial connection to the wireless network. Troubleshooting of networking issues at a later date may incur charges.

Declaration
We have read and accept the conditions above relating to the use of this computer at Trinity Grammar School, Kew. I also acknowledge that this device is not eligible for the optional buy-back at the time I/my son transitions to the school purchase program.
