Welcome from the Headmaster

For each of our children, the future promises to be complex, exciting and challenging times. Life has changed significantly in the last fifteen years and is likely to continue to change, at an ever-increasing pace beyond 2013. Our boys need to be equipped with the knowledge, understanding and skills to take on the developments that will undoubtedly occur. Flexibility and adaptability will be key ingredients in their personal toolkits.

This School is passionate about recruiting young people for the future. Areas of the school program have been designed to achieve the best outcomes for building the many challenges ahead. As you move around the School you will be able to experience something of the offerings our boys:

• A diverse curriculum which is shaped to meet individual needs;
• A learning environment in which technology is utilised to engage individuals in the most effective and meaningful manner;
• Spaces which provide choice for optimal learning by each student;
• Exposure to the creative arts, so that students take something of the world of aesthetic appreciation into their lives;
• Activities which focus on sporting opportunities;
• Community experiences which include outreach by way of engaging and learning from people living in different circumstances.

Such offerings provide our students with foundational learning, which will prepare them to meet our future, with open arms, an optimistic heart and a steady mind.

I am delighted to share our School with you on the 2013 Trinity Grammar School Open Day.

With warm wishes,

Richard Tudor
Headmaster
