A SUMMARY OF 2015 YEAR 12 RESULTS – 157 BOYS

SCHOOL COUNCIL PRIZE – JEREMY YIP 99.95

Jeremy started at Trinity in 2008 in Grade 5. A gifted musician, he has been involved in multiple bands and ensembles including the Senior String and Symphony Orchestras, where he was Section Leader. Jeremy also played Badminton and Hockey in the AGSV competition and was a member of the premiership winning AGSV Athletics Team. Jeremy was a Prefect and Vice-Captain of Hindley House where he played a central role in their House Performing Arts Festival production. Jeremy has received countless academic awards and prizes during the last 8 years particularly in Mathematics. Most notable is the Silver Medal at the 2015 International Mathematical Olympiad in Chang Mai, Thailand. Last year, Jeremy undertook Units 3 and 4 Physics and Mathematical Methods and achieved perfect scores in both, winning the Premier’s Prize for Mathematical Methods. He was presented the Prize for Mathematical Methods and the J D Levick Prize for Physics at Presentation Night last year and this year he was awarded the J K Merritt Prize for the Dux of Mathematics and Science, the Prize for Specialist Mathematics and an unprecedented seventh Prize for Distinctions and Merits.

Two boys, Alexander Stella and Max Collett scored 99.9.

24.3% of all subject scores were a 40/50 or better.

11 Boys (7%) scored an ATAR of 99 or better (Alphabetical)
Nicholas Campbell, Max Collett, Jonathan El-Khoury, Alasdair Harris, Michael Kotsimbos, Daniel Saw, Alexander Stella, Bing Xu, Kevin Xu, Jeremy Yip, Cameron Young.

23 Boys (14.6%) scored an ATAR of 98 or better
47 Boys (30%) scored an ATAR of 95 or better
70 Boys (44.6%) scored an ATAR of 90 or better
108 Boys (69%) scored an ATAR of 80 or better

Perfect Subject Scores of 50
There were 13 subject scores of 50 from 9 boys with five in English.

English: Noah Farrelly, Timothy Miller, Alexander Stella, Bing Xu, Jeremy Yip
Biology: Jun Kim
Chemistry: Jeremy Yip
Economics: Alexander Stella
Further Maths: Alexander Stella
Mathematical Methods: Lachlan Collins, Jun Kim, Tiger Lin, Mark Slavec

In 2014 Jeremy Yip scored 50 in Mathematical Methods and Physics, and Nicholas Mills scored 50 in IT Applications.

FROM THE HEADMASTER

There is a particular passage in the 1922 prospectus that rings as true today as it did then. The prospectus proclaims "the aim of the school is to make a boy's school life, work, games, school societies, recreational occupations and life in the boarding house, blend into one harmonious whole, the object of which shall be the attainment of character.'

The 157 young Trinity men who completed their Year 12 in 2015 have surely approached their life at school as one harmonious whole, throwing themselves into the activities beyond the classroom with great vigour as actors, artists, sportsmen and musicians.

As Headmaster, I cannot be more proud of our boys’ achievements across the board, but as we focus today on academic achievement I am delighted to report that these exceptional young men have acquited themselves with great aplomb.

I would like to commend our dedicated staff who have gone the proverbial extra mile with our boys. We have outstanding teachers and support staff at Trinity; my colleagues are diligent, intelligent and devoted, but most importantly they enjoy a magnificent rapport with the boys. Mr Fred Brown-Greaves and Mrs Susan Hill as Head and Deputy Head of Year 12 should receive particular congratulations in their first year in these pivotal roles.

I acknowledge and congratulate all students, but Jeremy Yip, Max Collett and Alexander Stella deserve special mention for their outstanding ATAR scores. I also congratulate the 13 students who achieved a perfect score in their subjects. To the exceptional young men of 2015 - well done!

Dr Michael Davies
Headmaster
